

Water Utility Supervisor

The City of Fort Atkinson Water Utility is looking for an experienced, self-motivated water professional to fill the role of Water Utility Supervisor. This position is responsible for supervising the operation and maintenance of the Fort Atkinson Water Utility, serving approximately 12,300 residents and businesses. The Water Utility Supervisor oversees an experienced staff of three water distribution technicians and several part time staff.

An Associate degree from an accredited college with specialization in engineering technology or a related field is preferred. Five years of distribution system and/or supervisory experience is preferred. Proficiency in Microsoft Office products, SCADA systems, and GIS technology preferred. Must possess a valid Wisconsin Department of Natural Resources (WDNR) Water Distribution certification.

This is a full time salaried position. The City of Fort Atkinson offers competitive pay and excellent benefits. The starting salary range is \$65,000 – \$72,000. Starting salary is negotiable, depending on qualifications. The City offers health insurance, dental insurance, life insurance, participation in Wisconsin Retirement System, deferred compensation, flexible spending, and paid vacation.

The City of Fort Atkinson is a vibrant community located on the Rock River about 45 minutes from Milwaukee or Madison. The school district is excellent and the community supports a myriad of local arts, entertainment, food, and volunteer endeavors. Recreational opportunities are plentiful within a short distance of town.

To apply, please submit a cover letter and resume to Andy Selle – City Engineer at aselle@fortatkinsonwi.net. (920) 563-7760

Applications will be received until November 24, 2017 or the position is filled.
