

Myers Briggs Personality Type Indicator Leadership Training

August 16th, Fond du Lac Holiday Inn, 9:00am - 3:00pm
August 18th, Eau Claire Sleep Inn & Suites , 9:00am - 3:00pm

Have you ever felt that your relationship with a constituent, colleague, or employee was like oil & water?

Have you ever had to manage a situation where people were interacting like cats and dogs?

Have you thought...
If we can't work out our differences,
then something bad is going to happen????

If you answered yes and you're a local government employee or official, then this workshop is for you! Because local government is founded on interactions with people, this means that many different personalities are involved. This can fuel tremendous collaboration or spark disastrous conflict. This workshop will teach you how to take advantage of the many different personality styles in your workplace and community so that great outcomes can be achieved.

- Understand your own personality preferences
- Acquire the ability to take advantage of the strengths of your personality preferences and overcome the challenges
- Learn to diagnose the personality preferences of others
- Develop an understanding of how to collaborate with others who are different than you

WHAT?

The Myers-Briggs Type Indicator is the most widely used personality assessment of its kind. Participants will learn their own personality preferences and the strengths and challenges of their personality. Through a highly interactive workshop, participants will gain an understanding of the variety of personality preferences and how to communicate and work with the unique differences of others so that local government meetings, committees, initiatives, and workplaces are effective and efficient.

WHO?

This workshop is designed for local government officials and employees. Board members, appointed officials, administrators, clerks, personnel managers, and truly any employee will benefit.
